## FOCUS ON

Italian Exhibition Group S.p.A., a joint stock company listed on Euronext Milan, a regulated market organised and managed by Borsa Italiana S.p.A., has, with its facilities in Rimini and Vicenza, achieved national leadership over the years in the organisation of trade shows and conferences. The development of activities abroad - also through joint-ventures with global or local organisers, in the United States, United Arab Emirates, China, Mexico, Germany, Singapore, Brazil, for example - now sees the company positioned among the top European operators in the sector.

This press release contains forecasted elements and estimations that reflect current management opinions ("forward-looking statements") especially regarding future managerial performances, investments, cash flow trends and financial organization evolution. By nature, forward-looking statements have an element of risk and uncertainty since they depend on future events. The effective results may therefore differ, even significantly, to those announced due to multiple factors including, merely by way of example: the catering market's foreign trends and tourist flows in Italy, market trends in the gold-jewelry industry and in the green economy; developments in the price of raw materials; general macro-economic conditions; geo-political factors and changes in the legislative framework. Furthermore, the information in this press release does not claim to be complete, nor has it been verified by independent third parties. The forecasts, estimations and objectives presented herein are based on information available to the Company at the press release issue date
